

Look to B&A® for highest purity "C.P." Acids and Ammonia

HCl

HNO₃

H₂SO₄

NH₄OH

PACKED IN THE CASE FOR QUALITY

As America's foremost producer of "C.P." acids and ammonia, Baker & Adamson works constantly to advance quality standards... and to develop ever safer and more convenient packages.

For example, "the case for quality" pictured above. This exclusive 1-way package was designed and developed to match the *quality* of its contents! Made of expanded polystyrene, this

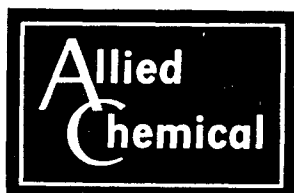

case is shock-resistant, stronger and lighter than previous shippers... cradles four 5-pint bottles in form-fitting pockets. It makes shipping, handling and storing far easier and safer... has a host of interesting "after-uses," too!

Look to B&A for quality, the most advanced packaging... and prompt service. Our coast-to-coast network of production and distribution points

provides an unusually dependable source of supply in both laboratory and commercial quantities. Thirty-five stockpoints—as well as leading laboratory supply houses across the country—offer carboy and case lot users convenient, speedy service. Make *your* next order B&A!

For additional information, request a copy of B&A's new "C.P." acid brochure. Company letterhead, please.
